

## TQScheduler™

Is an advanced staff scheduling tool that tracks all staff and scheduling changes in real-time. It transforms the complex and time-consuming tasks of staff scheduling and control into a synchronized, well-managed process. We offer a large set of innovative advancements, including:

- Top quartile based scheduling engine that uses employee preferences and patient ratio requirements
- Position control and qualifications monitoring
- Real-time auditing and management of premium and supplemental staffing expenses
- Daily staffing worksheets and advanced payroll tracking
- Streamlined tracking of information to comply with JCAHO standards and other regulatory requirements including PATIENT RATIOS!

The TQScheduler™ Generates Daily Assignment effortlessly!
